✦ Rotogravure Printing

Rotogravure printing service aims at providing high quality images on shrink sleeve labels to enable our customers to stand out from their competitors. In the flexible packaging industry, rotogravure printing can be a reliable way for shrink sleeve labels, laminates and pouches to get the attention of customers.

Your Printing Options

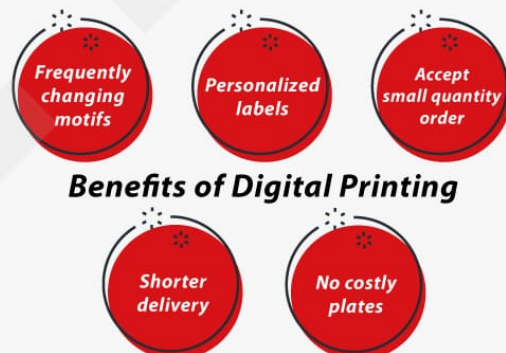

- ✦ Customized label printing available
- ✦ Label embossing & tactile label printing
- ✦ Double-sided label printing

<Customers Cases>

✦ Digital Printing

Our digital printing service is provided in response to the growing customer demand for shorter delivery since it eliminates the need for printing plates. The advantage of digital printing is shorter run lengths with incremental cost-effectiveness.

Choose The Right Materials For Your Label Application

It is very important to choose the right shrink film material. Different materials provide a variety of qualities and characteristics, which should be considered according to the use environment, customer needs, product appearance, tolerance, and price.
